ABOUT US

WHO ARE WE

Intelligent Business Solutions (IBS) is a leading specialist in the world of Information and Communications Technology (ICT), Information Security (InfoSec) and Innovation Advance Solutions.

We offer dynamic services and specialized support and are committed to providing comprehensive solutions and services to midmarket businesses and focused strategic consulting services to enterprise businesses.

IBS is able to offer both end-to-end solutions and needs-driven consultation.

In short, we help dynamic organizations align their IT services with their business requirements.

WHY US

IBS works in collaboration with their clients to design, deploy, operate, and improve the IT services that are essential to their businesses.

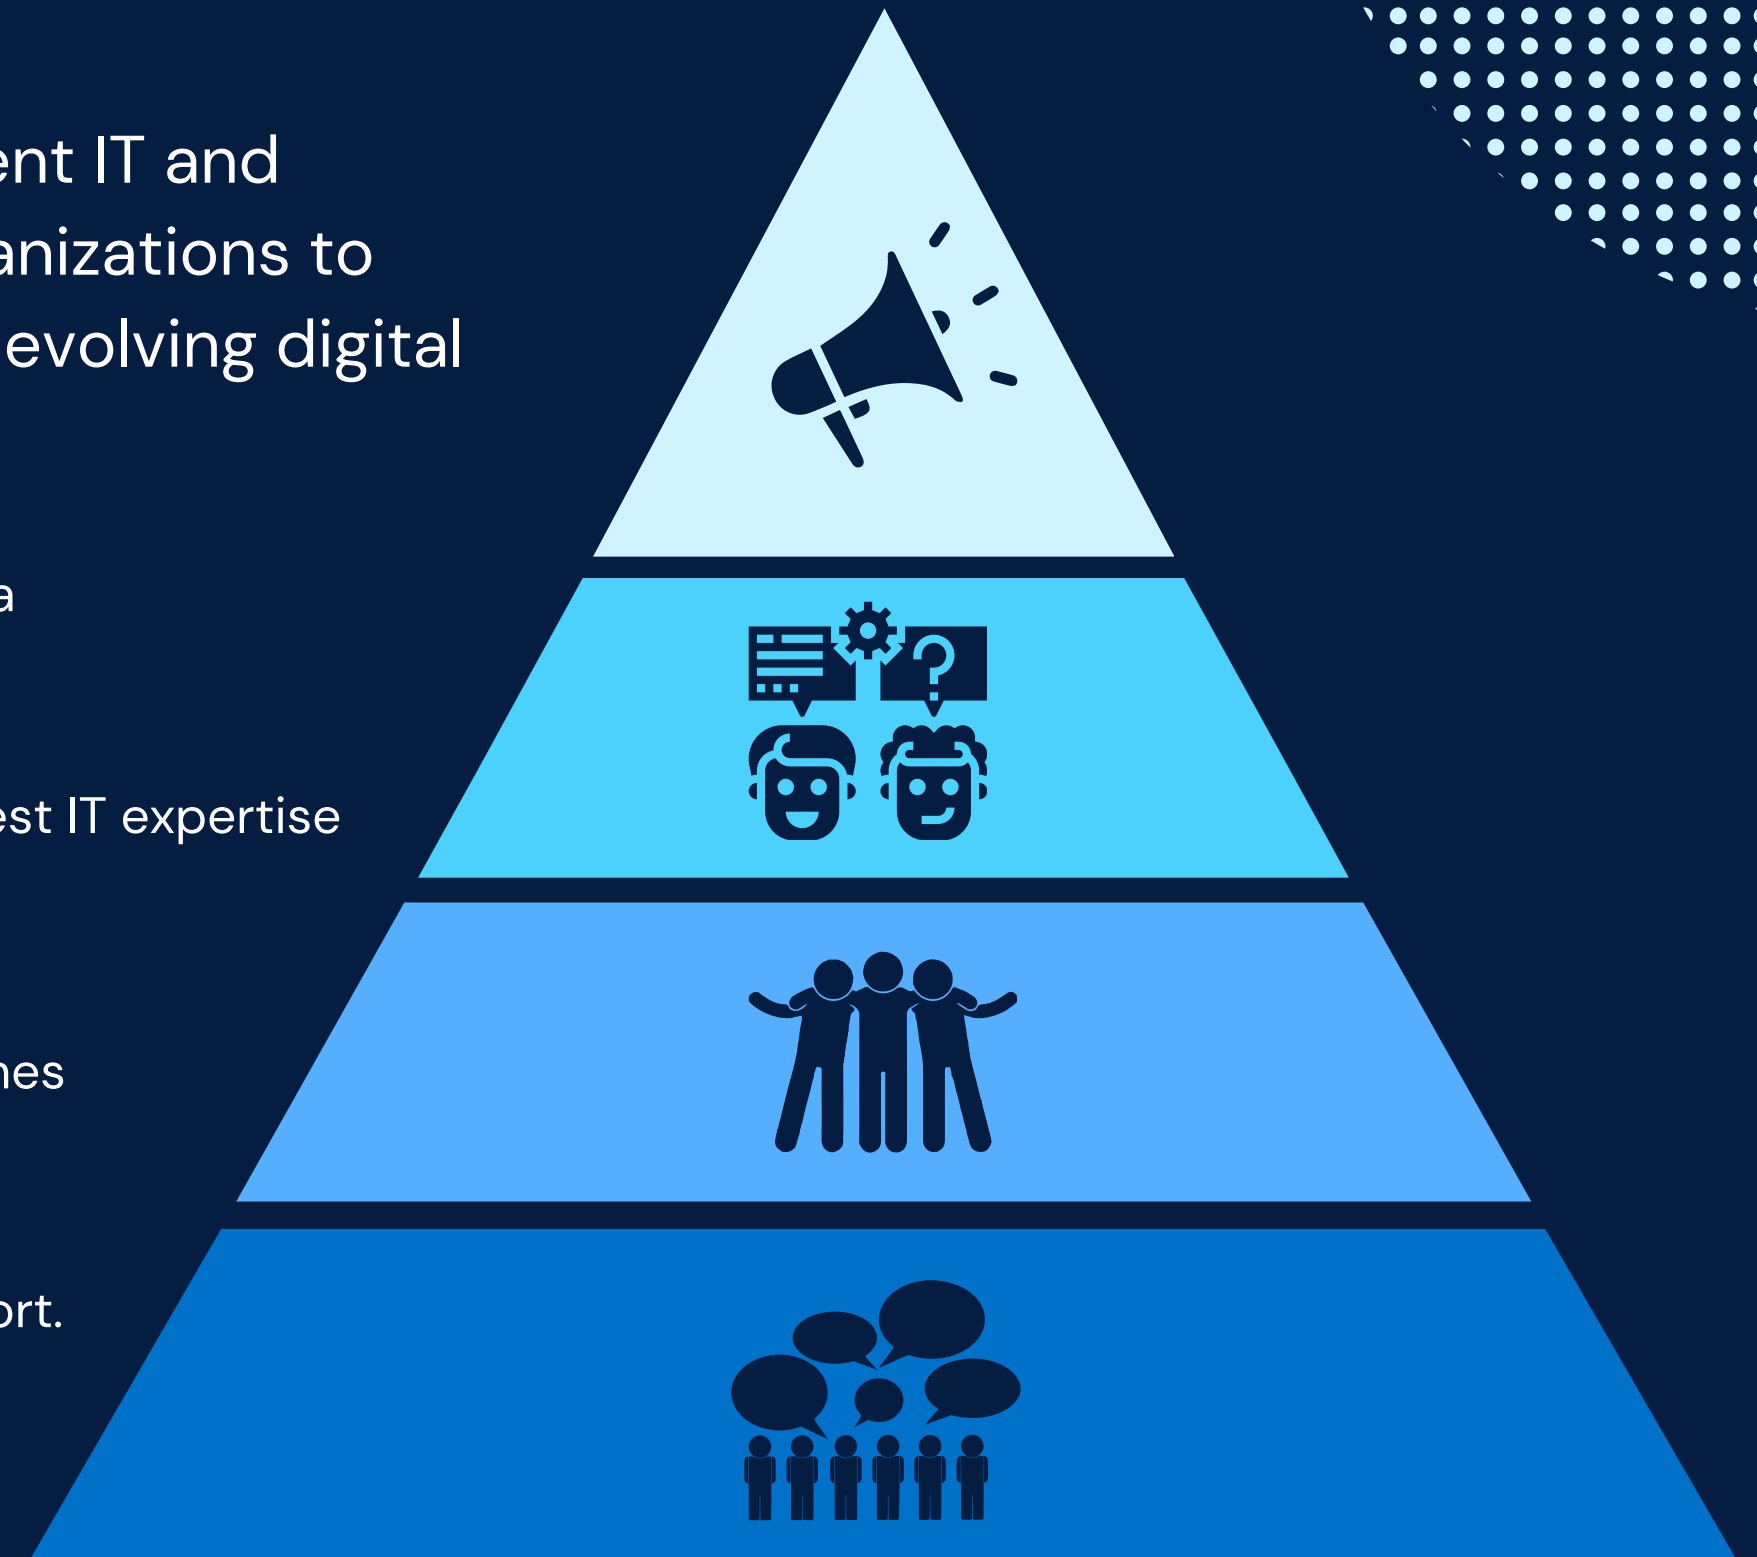

In addition, the extent of product and service offerings makes IBS a valuable contributor in this industry, where we are known for using both reliable tested solutions and new innovative methods depending on what best suits our clients' needs.

VISION

To be a trusted leader in delivering intelligent IT and cybersecurity solutions that empower organizations to innovate, grow, and stay secure in an ever-evolving digital world.

- 01** Our clients are the most important ingredient in a partnership with a top team of IT specialists.
- 02** Our clients enjoy cost-effective access to the best IT expertise and the latest technologies.
- 03** Our clients have the peace of mind that comes with measurable performance indicators.
- 04** Our clients can call on our 24-hour on-site support.

MISSION

To provide high-quality, customized technology services and security solutions that meet our clients' unique needs, enhance operational efficiency, and ensure long-term value through expertise and continuous improvement.

SERVICES

Cybersecurity

Protect your digital assets with our advanced cybersecurity services. We identify, prevent, and respond to threats with precision and expertise.

We deliver custom-built software solutions tailored to your business needs.

From web to enterprise apps, our development ensures scalability and performance.

Software

Networking

Seamless and secure networking solutions that keep your business connected. Our designs ensure reliability, performance, and centralized management.

Comprehensive managed services with 24/7 support and monitoring. We handle your IT operations so you can focus on business growth.

Managed

Recovery

Ensure business continuity with robust disaster recovery solutions. We minimize downtime and data loss with fast, reliable restoration.

STATISTICS

20+ YEARS OF SERVICE

80+ SATISFIED CLIENTS

45+ TRUSTED PARTNERS

450+ COMPLETED PROJECTS

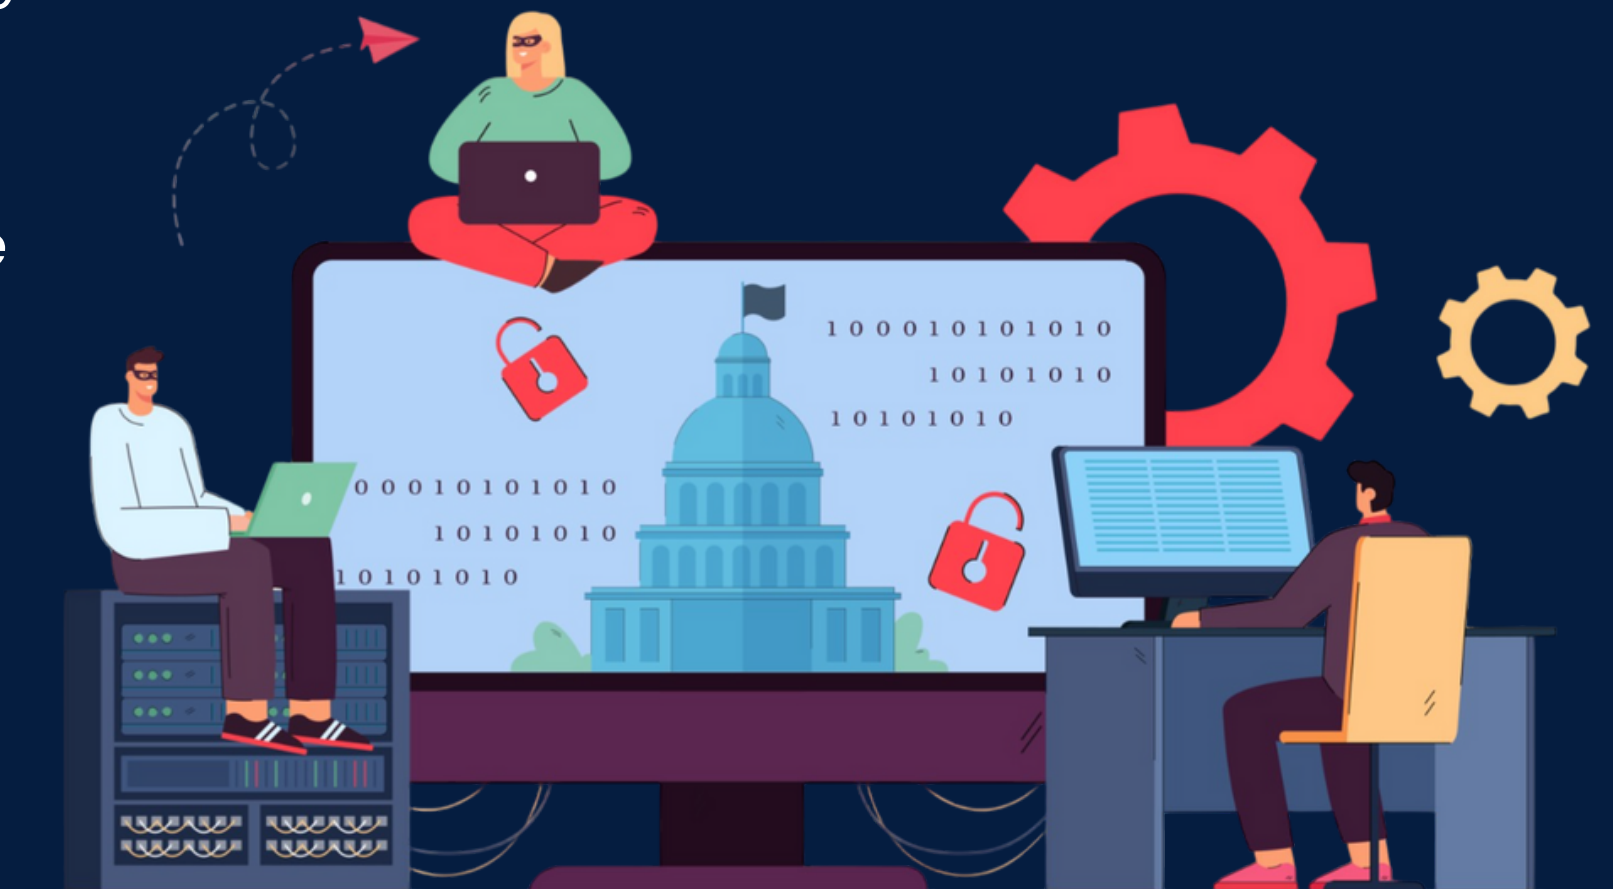

Cybersecurity

We provide end-to-end cybersecurity services that safeguard your digital assets from internal and external threats.

Our offerings include penetration testing, threat hunting, code reviews, and employee security training.

By combining advanced technologies with expert analysis, we proactively mitigate risks before they escalate.

Partnering with us means your organization is equipped with resilient, future-ready security infrastructure.
